- JavaScript
- React JS
- Next JS
- Spring Boot
- HTML
- CSS & SASS
- Docker
- Typescript
- Node JS
- Mongo DB
- Graph Ql
- Rest API

WORK EXPERIENCE

Software Engineer - II

BAZAAR TECHNOLOGIES, KARACHI | DEC 2022 TO PRESENT

- Worked on micro-services architecture using Spring Boot and NestJs, implementing REST and GraphQL APIs for multiple services. Utilized JUnit and Mockito to write unit tests for backend services.
- Collaborated with a cross-functional team of engineers to implement a real-time chat system using sockets and Spring Webflux. Contributed as a core backend engineer to improve communication and resolve issues for Bazaar customers and riders.
- Designed and developed a ticketing system for internal company and customer support, as a core engineer. The system improved response times, increased customer satisfaction, and streamlined internal support processes, reducing the resolution time for customer tickets by 50%.
- Helped implement custom npm packages for frontend development scripts and custom components libraries, improving the development experience and streamlining the module generation process.

Software Engineer - I

BAZAAR TECHNOLOGIES, KARACHI | JAN 2022 TO DEC 2022

- Developed frontend applications for multiple in-house software products, worked closely with product manager to improve already existing applications.
- Used testing tools such as Vitest, React Testing Library and Jest for unit testing of client side applications, which helped in reducing bugs and errors during production.
- Helped implementing micro-frontend architecture, code splitting and modular css techniques, which reduced the load time and optimised the structure of the frontend applications.

Freelance Fullstack Developer

FIVERR.COM | NOV 2020 TO PRESENT

Worked with more than 30 clients on 60+ projects with 5 star rating across all projects

- Designed and developed a full-stack fitness web application with a fully responsive design, multiple authentication options, stripe payment, video and audio player integration, and an admin dashboard. The project helped the company raise investments and attract top influencers around the country.
- Developed frontend dashboard for Phunnel.co's MyHobby POS system. An online marketplace where trading card enthusiasts can buy, sell, place bids, and create orders.
- Developed a hospital management system that aims to improve the communication between patients and doctors.
- Built a mobile-responsive web application for online gaming, with earnings management and prize-winning features. Built using Tailwind, Redux-Saga, and Node.js.

EDUCATION

INSTITUTE OF BUSINESS ADMINISTRATION, KARACHI

BACHELORS IN COMPUTER SCIENCE | 2018 TO 2022

EXTRACULICULAR ACTIVITIES

ASSISTANT DIRECTOR AT IBA COMPUTER SCIENCE SOCIETY | NOV 2018 TO AUG 2019

- Worked as a core team member and helped organized IBA Pro battle 19.
- Formulated the basic design approach and material details such as fonts, graphics, animation, and promotional videos.
- Worked with creative directors to developed design solutions.
